TONNAGE SCALE AT BOMBAY—(New Scale)

At a General Meeting of the Bombay Chamber of Commerce, held on 20th of July, 1883, the following Resolution was passed:—

That Rule I prefixed to the Tonnage Scale be cancelled, and the following rule be substituted:—That the Tonnage Scale for steamers shall be on the basis of 40 cubic feet to the ton, but in no case to exceed 20 cwts. deadweight.

The Tonnage Scale of the Bombay Chamber of Commerce up to 1901 consisted of three columns, namely, in the first column "Steamers, old scale," as established under the rules adopted at the General Meeting held on 8th October 1872, and under Rules II and III adopted at the General Meeting held on the 22nd July 1881; and in second column, "Steamers, new scale," as established under the rules adopted at the General Meeting held on the 20th July 1883, together with the Rules II and III of 1881 aforesaid; and in the third column, "ships" as adopted at the General Meeting held on the 6th June 1856. Under the aforesaid Rules II and III of 1881, various alterations of and additions to the tonnage scale had been made from time to time but the entering of such alterations and additions on the new scale was not accompanied by removal of the original entry on the old scale. It was, therefore, resolved at the Annual General Meeting held on 12th March 1902, "that the following rates of tonnage hitherto shown upon the old scale, and which are hereby declared obsolete and void, be entirely deleted from the Tonnage Scale:—Bajree in bags, 16 cwts; Coffee in bags or frazils, 12 cwts; Copra in robbins, 8 cwts; Gram in bags, 15 cwts; Jowari in bags, 16 cwts; Lang in bags, 16 cwts; Mowra flowers, 16 cwts; Mussur in bags, 16 cwts; Teel or Gingelly seed, 14 cwts; Rape seed, 14 cwts; Mustard seed, 14 cwts; Rice in bags, 16 cwts; Saltpetre, 16 cwts; Wheat, 16 cwts"

ORDERS FOR THE CONDUCT OF MEASUREMENT OF GOODS FOR TONNAGE
By Public Measurers in the Port of Bombay
Issued by the Committee of the Bombay Chamber of Commerce in pursuance of Section XVII of the Rules and Regulations adopted at a General Meeting of the Chamber held on the 6th March 1901

(1) All Orders hitherto in force for the governance of Measurers are hereby rescinded and the following are instituted with effect from the 1st April 1901

(2) The Measurers shall be in attendance on the Quays to which they are appointed whenever there are goods to be measured. During the busy season Measurers are expected to be on duty early and late

(3) All Measurement Fees shall be paid to the Measurement fee clerk, and no goods shall be measured without the production of the Custom House Pass bearing the endorsement of the said clerk to the effect that the fees have been paid

(4) The certificates of measurement issued in conformity with Rule XII shall show—

(*a*) the date, hour and place of measurement;
(*b*) the name of the shipper;
(*c*) the name of the vessel;
(*d*) the port of destination;
(*e*) the number and description of packages;
(*f*) the marks;
(*g*) the measurement;
and in the case of goods shipped by boats;
(*h*) the registered number of boat;
(*i*) the name of the tindal.

The certificates of measurements shall be issued by the Measurers and shall in every case be signed by the Measurer who measured the goods. One copy only of each certificate shall be issued, and such single copy shall be handed to the shipper.

(5) The whole of the packages forming a consignment of not more than thirty-two packages must be deposited on the Quay before measurement is taken.

(6) Consignments of more than thirty-two packages may be presented for measurement in lots of not less than thirty-two packages provided always that each lot, as soon as it is measured, is loaded into boats or shipped and that no unmeasured lot is mixed with a measured lot: Provided also that a final lot of less than thirty-two packages being the complement of a consignment of more than thirty-two packages, may be measured separately.

(7) Shippers failing to have each lot as soon as measured loaded into boats or shipped; or shippers mixing unmeasured goods with measured goods or permitting them to be mixed: or shippers retarding the work of the Department by failing to move with reasonable promptitude the bales required by the Measurer to be moved for the proper performance of his duties; or shippers attempting to elude these regulations, any such persons or their representatives may be required by the Measurer to deposit on the Quay the whole complement of their consignment before measurement is taken. In all cases when such requisition is made, the Measurer making it shall briefly report in writing to the Secretary the name of the shipper against whom the goods in respect of which and the reason for which it has been made.

(8) A Measurer withholding or recalling a certificate under Section XIII of the Rules and Regulations adopted

on the 6th March 1901, shall likewise briefly report to the Secretary in writing.

(9) No goods shall be measured otherwise than on a Quay excepting under the special conditions contemplated under Rule XIV and Order 22.

(10) Each and every package in a lot of packages not of uniform dimensions shall be measured individually. This Rule shall not apply to lots of pressed bales from various presses if the shipper arrange such diverse bales according to their respective dimensions separately on the Quay.

(11) In regard to packages of uniform dimensions, the Measurers shall use their judgment as to the proportion of such goods they should measure; but such proportion shall in no case be less than five per centum of each lot. Care must be taken by the Measurers that they are not induced to measure packages that do not fairly represent the average.

(12) In no case shall a shipper's man or men be allowed to put the Callipers on a package. A peon of the Chamber holding the Callipers may, when standing exactly in front, pull them tight with his hands, but not when standing on one side, nor shall he ever be allowed to pull the Callipers towards his chest or side or to put his shoulder to them

(13) In measurement for length, care must be taken that the legs of the Callipers touch the ground, and that bales when being measured lie in the same position as when in the press. Measurement of bales for depth and breadth shall be taken on the ends, half the number of bales being measured on the marked end and half on the other end.

(14) Measurers when measuring pressed bales shall ascertain whether all are from one press or not; and under orders (10) and (11) of these orders shall further ascertain how many bales there are from each press and shall give measurement accordingly and show on the certificate the number of bales to which each measurement relates

(15) In cases where the shipper shall hand to the Measurer a letter from the owner, agent or master of the vessel authorising the Measurer to accept for measurement and calculation of average such packages as the said shipper may reserve for such measurement, the Measurer shall measure the packages so preserved and give a certificate on the basis of their measurement, provided that such packages represent not less than five per centum of the entire consignment

(16) The scale of measurement fees leviable under Rules V and XVII shall be as follows:—

(*a*) On Cotton, Wool, Hemp, Aloe Fibre, Twist (white and coloured), Rags and Waste on pressed bales, 6 pies per bale.

(*b*) On Round Timber or Logs each, 8 annas

(*c*) On Gunny bales from Calcutta, Hides and Skins, Piece-goods, and all goods not included under (*a*) and (*b*) in packages of diverse dimensions, 1½ anna per package.
Subject to a rebate of pies 9 per package on the Measurer's certifying that the lot measured consisted of not less than 100 packages all of uniform dimensions.

(*d*) On goods of any description measured on board a vessel, 1½ anna per package.

(*e*) When the work of the Department admits of such an arrangement the exclusive services of a Measurer for a day may be secured on payment to the Secretary of a fee of Rs. 10.

(*f*) The attendance of a Measurer on a Sunday or one of the Charter-party Holidays when the Docks are closed may be secured on application to the Secretary, accompanied by the sum of Rs. 15 which shall be paid by him to the Measurer appointed by him to attend. The fee of Rs. 15 shall cover the services of one Measurer for one ship. If two Measurers are applied for, two fees of Rs. 15 must be paid at time of application. If a Measurer is required to work on more than one steamer a separate fee of Rs. 15 must be paid in respect of each steamer.

(*g*) The attendance of a Measurer for night duty may be secured in the same manner as above

(17) All disputes as to the applicability of Order 16 (*d*) under Rule XIV shall be referred to the Weather Working Days Committee of the Chamber and the decision of that Committee shall be final. With respect to Order 16 (*d*) a refund of pies 6 per package will be made on declaration of the said Committee, remitted on the invitation of the Claimant that the state of the weather during the thirty-six hours of grace allowed had been such as to justify the shipper's delay in bringing the goods alongside

(18) Refund of Measurement Fees in full shall be made in respect of a consignment or portion of a consignment shut out after measurement

(19) In respect of Round Timber and Logs, the measurement to be certified, in accordance with Order 4 (*g*) shall be as follows:—

Length in feet and inches: As found with tape

Breadth: The mean of two measurements taken with Callipers at thickest and thinnest portion

Depth: Same as Breadth

The certificate shall also show under Order 4 (*a*) not only the time at which the work of measurement was commenced, but the time at which it was completed. On application to the Secretary supported by evidence of time as here provided, Refund will be made of the difference between the fee as prescribed under Order 16 (*b*), and a charge of Rupees Two for every hour or part of an hour actually occupied in measurement

(20) Refund of Measurement Fees shall not be made for any sum less than Four Rupees

(21) All claims for Refund of Measurement Fees shall be made to the Secretary of the Chamber of Commerce, who shall allow or disallow such claims in conformity with these Orders: but no claim for refund of Measurement Fees shall be allowed unless presented within one month from the date of the sailing of the vessel concerned

(22) Each Measurer shall keep a Dispute Book and it shall be competent for any shipper or the owner, agent or master of a vessel who disputes the correctness of a measurement given in respect of goods being shipped by him to call for the said Dispute Book, which the Measurer shall produce at once, and to enter therein a claim to have the goods in question or any portion of them remeasured. And on the said shippers or the owner, agent or master of a vessel depositing with the Measurer, the sum of annas 2 for each package to be measured, the Measurer shall at once remeasure such package or packages in such a manner that the shipper or the owner, agent or master of a vessel can see whether the measurement is correctly taken, and shall give to the shipper or the owner, agent or master of a vessel a certificate of the measurement so found and written thereon the words "Protested Certificate Fee paid Rs. . . . . ." and the sum so paid. The Measurer shall immediately thereafter forward to the Secretary a statement of the case together with the amount of the Fee received

Provided that on any of the stations where more than one Measurer is employed, the Measurer whose Measurements are disputed shall, immediately after receiving the protest and fee, call another Measurer who shall make the remeasurement in the manner above laid down, shall issue the "Protested Certificate" and forward the necessary statement to the Secretary

(23) Should a shipper demand, remeasurement under Order 22 and should such remeasurement, in the opinion of the Secretary, show the original measurement not to have been substantially correct, the extra fee of annas 2 per package shall be refunded to shipper on demand and the case reported to the Committee

(24) Every Measurer shall receive a book of temporary measurement slips together with indelible pencil and carbon paper for making such slips in triplicate. The measurer will retain the first copy, and from it write up his certificates; the second copy he will hand to the shippers at the time of measurement, and the third to the ship agent's representative on demand

Provided that when goods are shipped in boats for delivery alongside, the said third copy belonging to the ship's agent, shall be handed to the boatman from whom it should be obtained by the ship's officers

(25) One Measurer shall attend in each chowki at 10-30 a.m. for issue of the certificates relating to measurements made on the previous day. Provided that some discretion as to the exact hour of attendance for the purpose stated may be exercised by Measurers on stations where the state of the tide greatly affects the work. Certificates not claimed on the day succeeding measurement shall be preserved for one week and shall then be destroyed by the Measurer personally. Thereafter a certificate can be obtained only on application to the Secretary with the customary fee of Re. 1 for a duplicate certificate.

FOR PRINCES AND RICH MEN ONLY.

THE

ROYAL YAKUTI.

THIS Yakuti or life-giving nectar has been prepared from the best, choicest, and richest vegetable drugs. It has wonderful properties of increasing virile power and it rectifies urinary disorders. In fact it makes man a man. This valuable medicine is used in large quantities not only by our Rajas, Maharajas, Nawabs and many of the nobility, aristocracy and gentry in this Country, but it is greatly patronised by people in all countries of Europe, America, Asia and Africa. It is needless to expatiate upon the magical qualities of this our invaluable medicine. We recommend it specially to those persons who desire to tone the nervous system, to strengthen the body, refresh the memory, and to guard against debility. Suffice it to say that the use of this medicine is recommended to those who have any faith in the Ayurvedic medicines. It works like a charm and the effect is lasting. It replaces lost power and rejuvenates the emaciated and it is enough to say that musk is not that which a perfumer admires. It is that which diffuses fragrance of its own accord. Price per tin containing 40 pills, Rupees ten only. [13s. 4d.]
